

Ecoguss project drain glu. flange DN 70, horizontal, Slotted cover

Article information

Item no.: 48578.11 GTIN: 4026092032763 Price group: 40

Advantages

- High-tech Ecoguss composite material
- Ecoguss, highest fire protection standards
- Scientifically confirmed sound protection effect

Description

The Ecoguss floor/roof drain is used for point drainage and is equipped with a glued flange, a removable odour trap, a lip seal and a temporary protective cover. The recyclable composite material Ecoguss fulfils the highest sound protection requirements, is resistant to aggressive media, temperature resistant and has a permanently corrosion-free surface. It can be exposed to flames of 100 up to 400 degrees Celsius for short periods. The glued flange with a flange width of 50 mm is suitable for connecting waterproofing layers in accordance with DIN 18534, for all waterproofing classes. The loose flange is used for clamping polymer and elastomer sealing sheets as well as for cold bitumen seals and is therefore only suitable for use with moisture barriers. The outlet socket is suitable for connection to SML cast iron pipes. Separate equipotential bonding is not necessary.

Variant	
System:	125
Waterproofing layer on the upper section:	Connection flange
Waterproofing layer on the drain body:	Adhesive flange (suitable for moisture barriers)
Water supply:	W3-I
Sealing water height:	50 mm
General characteristics	
Standard:	EN 1253-1
Nominal size (DN):	70
Outer diameter (OD):	78 mm
